

* LLM in Depth *

① Understand Natural language processing and large language Models.

↳ Text processing

↳ Text translation

↳ NLP tasks.

↳ summarization.

↳ Text classification

@codingdidi

↳ What Transformers can do?

↳ How Transformer work?

↳ How do they solve problems.

↳ Transformer architecture

↳ Text Processing.

↳ Tokenization

↳ Lowercasing

↳ Stemming

↳ stopwords

↳ Lemmatization

↳ N-grams.

↳ Text Representation

↳ TF-IDF

↳ Bags of Words.

↳ Sparse Vectors

↳ Tokenizers

↳ Word Embeddings

↳ Dense Vectors

↳ Context understanding.

↳ Semantic similarity

Models → CBOW, GloVe, skip-gram, FastText, Word2Vec.

- ↳ pre-training
- ↳ fine-tuning.
- ↳ Inference & Text Generation
 - ↳ Greedy Search
 - ↳ Beam Search
 - ↳ Temperature
 - ↳ Top-k sampling.
 - ↳ Top-P sampling.
